Product Overview

Support lamina health

This innovative hoof health formula includes hops and omega 3 fatty acids, two ingredients demonstrated by research to support healthy laminae. SmartLamina Pellets also include the super-potent antioxidant Auradagex™ to combat oxidative stress in hoof tissues, along with MSM and devil's claw to promote a healthy inflammatory response and help manage discomfort in the foot. SmartLamina Pellets are specially designed to help maintain laminar health in easy keepers and horses with insulin resistance or pituitary dysfunction.

- Includes the powerful antioxidant Auradagex™, plus hops & omega 3 fatty acids for laminar integrity
- Also provides MSM & devil's claw to support a healthy inflammatory response

Facts
