

CFS PRO'S CHOICE ABF

Code 3594

Combining Goodness and Value

CFS PRO'S CHOICE checker is a highly fortified feed designed to balance the protein in our Atlantic Canadian forages at a reasonable price. **CFS PRO'S CHOICE** is formulated with high quality ingredients. **CFS PRO'S CHOICE** is ideal for the maintenance, pleasure, competition, working horse, boarding stables, and riding schools.

FEATURES	BENEFITS
Enhanced fortification to meet the needs of the maintenance, pleasure and active horse	Versatile and easy to use Saves mixing
Contains a moderate level of calories and protein	Prevents excess calories and protein
Calories are primarily derived from starch, with added fibre and vegetable fat	Suitable for many types of horses
Palatable feed	Encourages steady consumption
Pelleted feed	Increases digestibility of starch Prevents sorting for more consistent nutrition
Contains organic Selenium	Higher bioavailability and optimal absorption
Manufactured in a HACCP approved facility with high standards of biosecurity and quality	Consistent quality feed Showing our commitment to feed safety and customer satisfaction
CFS horse feeds and supplements are animal by-product free (ABF)	Peace of mind
Available at a competitive price	Excellent value
High quality feed manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

CFS PRO'S CHOICE ABF

Code 3594

Feed **CFS PRO'S CHOICE** in conjunction with at least 1% of body weight (on a dry matter basis) of a long-stemmed forage (hay/pasture). Feed **CFS PRO'S CHOICE** according to the following table. The lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the Superior recommendations provide 225 grams of **CFS Elevate** (3573). For growing horses or low hay analysis **CFS Select** (3571) may be better suited as the ideal top-dress supplement.

Gestation Mare	.73	1.33
Lactation Mare	.91	1.67
Yearlings	1.25	1.67

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period. Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or Purina Certified Equine Consultant. pam@cfs.ca
