

Kentucky Lite E. is an exclusive blend of black and white oats, corn, barley, wheat and special high-performance vitamins. It has a very high level of energy from carbohydrates and easily digestible starch. It especially fits all types of performance horses and horses in hard work.

The mixture is rich in carbohydrates and easy digestible starch. Additionally, the high level of Vitamin E (the “muscle vitamin”) in combination with the increased amount of selenium, ensures an optimized disposal of Lactic acids and supports an outstanding muscle fitness.
