Copper	Min	50 ppm

Selenium	Min	0.60 ppm
Zinc	Min	200 ppm
Vitamin A	Min	5,000 IU/lb
Vitamin E	Min	80 IU/lb

**Directions For Use:** General: Manna Senior is formulated for older horses at maintenance to light work. Manna Senior is most commonly fed along with hay and/or pasture. Feed Manna Senior at a rate necessary to support the desired body condition and activity level. Use 6–8 lbs per day as a starting guideline, adjusting as necessary to meet the needs of the horse. Provide fresh, clean water at all times.

**Complete Feed:** Manna Senior contains built-in digestible fiber. For horses unable to adequately chew and utilize hay and/or pasture, Manna Senior can be fed as a complete feed. Feed Manna Senior at a rate necessary to support the desired body condition and activity level. Use 12–16 lbs per day as a starting guideline, adjusting as necessary to meet the needs of the horse. Even when using Manna Senior as a complete feed, it is recommended that horses be fed a few pounds of good-quality long-stem hay each day, if possible. Provide fresh, clean water at all times.

**Poor Tooth Condition:** For horses with extremely poor tooth condition, Manna Senior can be fed as a wet gruel. Simply mix the feed with water to the horses's preference and allow to soak for five minutes prior to feeding. Provide, fresh clean water at all times.

**Reminder:** Feed is perishable. Store this product in a cool, dry area away from rodents and insects.

**Warning:** DO NOT feed any product that is spoiled, moldy, rodent or insect infested, or abnormal in appearance or odor, as it may cause illness or death. This product contains supplemental copper. DO NOT feed to sheep or other copper-sensitive species.
