

Performance

Just like you, your active horse requires the right fuel to power its performance, while maintaining a proper weight. Equis® Performance blends calorie-rich grains, oils and fiber with highly digestible vitamins, minerals and digestive aids in an energy-dense, textured feed formulated to keep your horse at its peak.

Benefits

- Equis® Performance blends many types of energy sources to produce a **balanced feed** that will succeed at keeping your horse at his proper weight and energy level, no matter the demand.
- Equis Performance **10% fat guarantee** provides sustained energy for your horse's activities. The high fat content has the additional benefit of coat bloom.
- Includes **Alltech® BioMOS®, Diamond V Yeast Culture® and Nuwen Calsea Powder Advance** at manufacturer's recommended levels for your horse's digestive wellness and immune balance through nutritional excellence.
- Equis Performance features **SelPlex® from Alltech®** as a natural selenium source in response to the low availability of this trace mineral in northwest forages.
- Includes **Zinpro® 4-Plex EQ Performance Minerals®**. Equis feeds contain complexed trace minerals including zinc, manganese and copper and cobalt. These minerals may only be required in small amounts each day, but they play a critical role in numerous metabolic functions that affect the health of the horse.
- **Manufactured in the Northwest** for the northwest equine. Enjoy the benefits of a **premium** product at an affordable cost.

Ingredients*

Oats Whole, Wheat Middlings, Barley Rolled, Canola Meal, Corn Distillers Dried Grains with Solubles, Corn Rolled, Canola Oil, Molasses Products, Dried Beet Pulp, Cane Molasses, Calcite, Calcium Carbonate, Salt, Hydrolyzed Yeast, Yeast Culture, Zinc Methionine Complex, Manganese Methionine Complex, Copper Lysine Complex, Cobalt Glucoheptonate, L-Lysine Hydrochloride, Monocalcium Phosphate, Dicalcium Phosphate, Natural and Artificial Flavors Added, DL-Methionine, Preserved with (Butylated Hydroxyanisole, Butylated Hydroxytoluene), Phosphoric Acid, Citric Acid, Disodium EDTA, Ferrous Sulfate, Manganese Sulfate, Zinc Sulfate, Vitamin E Supplement, Basic Copper Chloride, Biotin, Mineral Oil, Choline Chloride, Vitamin A Supplement, Sodium Selenite, Ethylenediamine Dihydriodide, Vitamin D3 Supplement, Niacin Supplement, Vitamin B-12 Supplement, Calcium Pantothenate, Riboflavin Supplement, Selenium Yeast, Yucca Schidigera Extract, Roughage Products.

**Contains Alltech Bio-Mos®, Zinpro-4 Plex EQ, Nuwen Calsea Powder Advance; Protein, Fat and Fiber content may vary by region*

Guaranteed analysis

Lysine	minimum	0.75%
Methionine	minimum	0.3%
Crude Fat	minimum	10%
Crude Fiber	maximum	9%
Calcium	minimum	0.75%
Calcium	maximum	1.25%
Phosphorus	minimum	0.5%
Copper	minimum	90 ppm
Selenium		0.4 ppm
Zinc	minimum	300 ppm
Vitamin A	minimum	6,000 IU/lb
Vitamin D	minimum	600 IU/lb
Vitamin E	minimum	80 IU/lb
Biotin	minimum	0.55 mg/lb

Feeding directions

Activity	Feeding recomm. as a percentage of body weight (%)	Pounds of feed per 500 lbs of body weight (lb)
Maintenance	0.2 + Ultramin or Daily 35% ***	1
Light work	0.4 - 0.6	2 - 3
Moderate work	0.6 - 0.8	3 - 4
Intense work	0.8 - 1.0	4 - 5

***When feeding less than recommended feeding amount of Equis Performance add [Equis Ultramin \(/products/ultramin/\)](/products/ultramin/) or [Equis Daily 35% Supplement \(/products/daily-35/\)](/products/daily-35/) to complete your horse's vitamin and mineral requirement (see tags for further recommendations).

- Feeding rates depend heavily on the quality of forage, activity level, age, breed, temperament and special needs of each horse.
- Changes in feed type or rate should be made gradually.
- Feeding a minimum of 1% of body weight in roughage is highly recommended.
- Fresh, clean water should be available at all times.
- Feed horses regularly, preferably two or more times daily.
- Do not feed old, moldy, or insect-infested feeds as they may cause illness, abortions or death.
- Store in a dry place.
