

Power-Plus Mix is a concentrated premium cereal mix designed for horses in for high performance sports and for horses that could use some extra energy. This muesli is mainly used when a good muscle strength is very important (e.g. dressage, jumping, trotting, racing and endurance). Power-Plus Mix is composed of black oats, micronized barley and maize, and is enriched with extra electrolytes.

The addition of electrolytes provide an extra support at peak performance. The electrolyte reserves are quickly restored after high effort, when the horse has been sweating. The increased vitamin E content (the "muscle-vitamin"), in combination with selenium supports muscle fitness and optimal discharge of lactic acids.
