

Safe Performance[®] Special Diet

★★★★★ (0) Write a review
Controlled Starch Pelleted Feed for Mature Horses

Manna Pro[®] Safe Performance Special Diet is a simple way to ease your feeding concerns if your horse is prone to metabolic disorders related to high starch intake. Recommended by veterinarians, you can feed it with confidence and know that your horse will get the calories they need without high-starch grains or molasses. It's highly digestible, high in fat and provides safe, concentrated energy.

Controlled calories and sugar levels to maintain a healthy body weight.

- No corn and no molasses
- Fortified with chelated minerals
- Added probiotics
- Formulated with Max-E Glo[®] Stabilized Rice Bran, which provides additional plant-based fat and fiber content to help maintain body condition
- Take even more control of your horse's nutrition with Safe Performance Special Diet* and Safe Performance Senior*

Selenium	Min	0.60 ppm
Zinc	Min	200 ppm
Vitamin A	Min	5,000 IU/lb
Vitamin D ₃	Min	375 IU/lb
Vitamin E	Min	150 IU/lb
Biotin	Min	0.50 mg/lb

INGREDIENTS

Wheat Middlings, Soybean Hulls, Rice Mill By-Product, Heat Stabilized Rice Bran, Calcium Carbonate, Yeast Culture, Salt, Lignin Sulfonate, Monocalicum Phosphate, Dicalcium Phosphate, DL-Methionine, Propionic Acid (a Preservative), L-Lysine, Natural and Artificial Flavors, Zinc Amino Acid Chelate, Manganese Amino Acid Chelate, Copper Amino Acid Chelate, Vitamin E Supplement, Zinc Sulfate, Copper Sulfate, Manganous Oxide, Choline Chloride, Magnesium Oxide, Manganese Sulfate, Ferrous Sulfate, Zinc Oxide, Biotin, Ferrous Carbonate, Sodium Selenite, Vitamin B₁₂ Supplement, Thiamine Mononitrate, Vitamin A Supplement, Niacin Supplement, Riboflavin Supplement, Calcium Pantothenate, Pyridoxine Hydrochloride, Cobalt Carbonate, Vitamin D₃ Supplement, Potassium Chloride, Calcium Iodate, Folic Acid, Active Dry Yeast, Dried *Aspergillus Oryzae* Fermentation Solubles, Dried *Bacillus Licheniformis* Fermentation Solubles, Dried *Bacillus Subtilis* Fermentation Solubles, Dried *Bacillus Amyloliquefaciens* Fermentation Solubles, Dried *Trichoderma Longibrachiatum* Fermentation Solubles, Dried *Enterococcus Faecium* Fermentation Product, Dried *Lactobacillus Acidophilus* Fermentation Product, Dried *Lactobacillus Casei* Fermentation Product, Dried *Lactobacillus Plantarum* Fermentation Product

Directions For Use:

Safe Performance Special Diet is formulated for mature horses in good body condition for whom controlled starch intake is desired. **Safe Performance Special Diet** should be fed with hay and/or pasture; high-quality forage should make up at least half of the complete diet. Many horses will have the majority of their caloric needs met by the forage they consume. Feed **Safe Performance Special Diet** at a rate necessary to support the desired body condition and activity level and provide other essential nutrients. Use 2–4 lbs per day as a starting guideline, adjusting as necessary to meet the needs of the horse. Provide fresh, clean water at all times. If you have questions about how to use this product in your feeding program, please contact Manna Pro at (800) 690-9908.

Change to this feed gradually over a 5- to 7-day period. **Do not** overfeed or offer this product on a free-choice basis. When feeding grain, divide the amount fed daily into two or more feedings. **Do not** feed more than 0.5% of the animal’s body weight in grain (½ lb grain per 100 lbs of body weight) at any one time. Maintain a regular feeding schedule. Provide fresh, clean water and adequate forage at all times. **Do not** allow hot, exercised horses free-choice access to water until they have cooled down. Work with your veterinarian to develop a comprehensive equine health program.

Caution: Follow label directions. Feeding added selenium at levels in excess of 0.30 ppm in the complete diet is prohibited.

Reminder: Feed is perishable. Store this product in a cool, dry area away from rodents and insects.

Warning: **Do not** feed any product that is spoiled, moldy, rodent or insect infested, or abnormal in appearance or odor, as it may cause illness or death. This product contains supplemental copper. DO NOT feed to sheep or other copper-sensitive species.
