

# CFS Elevate ABF

**Code 3573**

**The correct balance of essential vitamins & minerals**

**CFS Elevate** is specifically designed to provide the correct balance of essential vitamins and minerals to horses not receiving the recommended amount of a Purina or CFS fortified feed. **CFS Elevate** is recommended as a supplement for easy keeping horses that receive little to no feed and for hard working horses. **CFS Elevate** increases the amount of vitamins and minerals without significantly increasing the level of calories.

FEATURES	BENEFITS
Highly fortified supplement	Provides all the vitamins, macro and micro minerals to promote health and vitality Provides proper fortification for grain based diets CFS Elevates mineral and vitamin levels – without adding excess protein or energy
Contains chelated /organic trace minerals Selenium, Zinc, Manganese and Copper.	Increases absorption and thereby enhancing bioavailability of trace minerals for heightened immune response, improved reproductive function, fetus development in early and mid gestation
Added fat as vegetable oil	Provides vegetable fat, a rich source of essential polyunsaturated fatty acids for healthy skin, hair coat and hoof condition
Fortified with lysine	Provides the first limiting amino acid (building blocks for protein) for better muscle development and protein synthesis
Added flavour	Flavouring ensures palatability and consumption, even by the most particular horse
Fortified with biotin	Promotes healthy hooves and hair coat
Manufactured in a HACCP approved facility with high standards of biosecurity and quality	Consistent quality feed Showing our commitment to feed safety and quality
CFS horse feeds and supplements are animal by-product free (ABF)	Peace of mind
High Quality feed and/or supplement manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

# CFS Elevate ABF

Code 3573

Feed **CFS Elevate** as the sole ration according to the following table, to easy keeping horses to provide minerals and vitamins without adding excess calories or proteins. **CFS Elevate** may be fed as a top dress in conjunction with a Purina or CFS feed for growing, maintenance and performance horses that are not being fed the recommended amount of a Purina or CFS horse feed. Provide 0.2 kg to 0.3 kg of **CFS Elevate** for every kilogram below the recommended amount of a complete Purina or CFS horse feed. Feeding **CFS Elevate** is strongly recommended as a top dress/balancer in early and mid gestation mares to **CFS Elevate** mineral and vitamin levels in order to minimize the incidence of Developmental Orthopedic Disease (DOD). **CFS Elevate** contains Purina Yeast Culture and organic selenium, copper, zinc and manganese.

## GUARANTEED ANALYSIS

Protein	Min.	12.00%
Crude Fat	Min.	4.00%
Crude Fibre	Max.	15.00%
Sodium	Actual	1.50%
Calcium	Actual	3.00%
Phosphorus	Actual	2.50%
Magnesium	Actual	0.30%
Sulfur	Actual	0.25%
Potassium	Actual	1.00%
Iodine	Actual	4.30 mg/kg
Iron	Actual	1,000 mg/kg
Copper	Actual	240 mg/kg
Manganese	Actual	600 mg/kg
Zinc	Actual	700 mg/kg
Cobalt	Actual	1.2 mg/kg
Fluorine	Max.	50 mg/kg
Vitamin A	Min.	39,000 IU/kg
Vitamin D <sub>3</sub>	Min.	7,200 IU/kg
Vitamin E	Min.	1,000 IU/kg
Selenium	Added	1.80 mg/kg
Biotin	Min.	4.5 mg/kg

ACTIVITY LEVEL	Kg / 100 kg of Body Weight	
	Minimum	Superior

<b>Stallions</b>		
Non Breeding	0.111	0.222
Breeding Stallion	0.160	0.220
<b>Broodmares</b>		
Early/Mid Gestation	0.160	0.222

## OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or Purina Certified Equine Consultant. [pam@cfs.ca](mailto:pam@cfs.ca)
