

CARB CARE® PERFORMANCE

LEGENDS

A pelleted/extruded feed for mature horses in moderate to intense performance and show activities

A fixed-ingredient formula specifically designed for mature horses in moderate to intense performance and show activities. This 10% high fat feed provides increased calories for horses considered hard keepers or those who require prolonged stamina and improved body condition during high performance conditions. In addition, Legends® CarbCare® Performance is a perfect recommendation for horses with excitability, or those who present digestive challenges.

BENEFITS

- > **Legends® GastroCare™ Technology** has been blended into this feed for added gastric support.
- > **Low Starch and Sugar** recommended for horses with excitability, or those who present digestive challenges.
- > **High Fat** provides increased calories for prolonged stamina and improved body condition during high performance conditions.
- > **Fixed Ingredient Formula** for consistent palatability and consumption.
- > **Added Prebiotic and Probiotic** cultures to support digestive efficiency and health.
- > **Added Flax** to support hoof, muscle, joint and immune system function.
- > **Amino Acid Fortification** to support muscle repair and maintenance.
- > **Organic Trace Minerals Including Selenium** for desired hoof, coat, skin quality and to support immune system.
