

SU-PER[®] Gelatin

Helps Support Normal Hoof Growth!

Provides essential amino acids and a high quality source of protein.

SU-PER[®] Gelatin is 100% pure Gelatin, with no additives or fillers.

SU-PER[®] Gelatin is used as a feed supplement to aid in hoof and hair growth and to provide strength and resiliency to the hoof. It is very popular due to the low cost and great results!

Most horses see improved hoof growth within the first 30 days.

While it's main use is for hoof health, Gelatin is a protein source that provides 18 different amino acids. These amino acids play various roles in the body, including the formation of lean muscle mass and connective tissues, increased energy and endurance, improved fat utilization, assisting in wound repair, and even helping create a sense of mental calmness among many other benefits. Gelatin is a great supplement for the general health of active horses as well as seniors, and can even benefit weanlings and yearlings during phases of growth and development.

In addition to these many benefits, *SU-PER[®] Gelatin* is gaining in popularity as a joint support supplement as well. Ingredients like Glucosamine, MSM and Chondroitin Sulfate are key to joint health supplements, but Gelatin can play a very important role in the proper formulation of healthy cartilage in the joints. Gelatin has been shown to also improve the ability of cartilage to absorb impact and maintain flexibility, which is key for active horses and those with ongoing joint issues.

SU-PER[®] Gelatin is recommended for hoof, joint, and general maintenance in horses of all ages and disciplines.
