

## SU-PER<sup>®</sup> Hoof

*Helps Support Healthy Hoof Growth!*

**Contains building blocks to support normal hoof growth and structure.**

*SU-PER<sup>®</sup> Hoof* is our basic hoof supplement, providing the essential nutrients required for hoof growth and maintenance, at an economical price.

We do offer a more concentrated and powerful hoof supplement, *SU-PER<sup>®</sup> Farrier's Supplement*, which is typically recommended for repair of hoof damage and fast hoof growth. However, supplementing *SU-PER<sup>®</sup> Farrier's Supplement* is not always necessary for minor hoof damage and basic maintenance. *SU-PER<sup>®</sup> Hoof* fills that role of giving basic nutritional support to the hoof at a more reasonable price.

*SU-PER<sup>®</sup> Hoof* is a great choice for keeping hooves healthy during the colder winter months. Hoof growth slows in the winter, to about half its normal rate. Yet the harsher conditions, fluctuating temperatures, and frozen ground can cause more stress and strain on hooves than in warmer months which may lead to hoof damage. Also, new hoof growth in winter may be weaker than hooves grown in the warmer months due to poorer quality roughage with lower nutritional content. It's important to keep the hoof growth going in the winter, and to provide those necessary nutrients.

*SU-PER<sup>®</sup> Hoof* is also the perfect choice for horses who are not highly active or not in need of fast results, but who do have minor hoof damage.

*SU-PER<sup>®</sup> Hoof* can help speed the healing process without breaking the bank!

*SU-PER<sup>®</sup> Hoof* contains essential hoof nutrients:

- Biotin
- Methionine
- Lysine
- Zinc
- Pyridoxine
- Gelatin

*SU-PER<sup>®</sup> Hoof* can be added to any feeding regimen, and help provide the extra boost in hoof growth whenever it may be needed.
