

SU-PER[®] ImmunoBOOST

Supports a Healthy Immune System!

**Provides anti-oxidant support, also assists the body
in combating environmental pollutants.**

SU-PER[®] ImmunoBOOST is a concentrated source of anti-oxidants, herbal extracts, and more to help support normal immune system function.

Certain factors can lessen the immune response, such as illness, poor diet, stress, and age. It is important that your horse have a healthy and responsive immune system to help boost the body's natural defenses.

Anti-oxidants are critical in maintaining a healthy immune system, and *SU-PER[®] ImmunoBOOST* provides an extensive range of effective and powerful anti-oxidants, such as Vitamins C and E, Grape Seed Extract, Superoxide Dismutase and more.

In addition, *SU-PER[®] ImmunoBOOST* contains herbal extracts such as Echinacea and Bioflavonoids that not only assist proper immune system function, but also lessen the recovery time after illness.

And finally, *SU-PER[®] ImmunoBOOST* contains a wide range of vitamins, minerals and support nutrients that directly support immune function and immune response, as well as minimize the occurrence of common nutritional deficiencies that can result in poor immune function.

We highly recommend this product for older horses and performance horses, as they have a greater need for anti-oxidant protection. Any horse under consistent stress, in transport, or being stabled with other horses will benefit from this product as well.

SU-PER[®] ImmunoBOOST can be given to horses of all ages.
