

SU-PER[®] Lysine

Supports Healthy Bones, and Muscle Tissues!

Lysine is necessary for the proper formation of connective tissue and normal growth.

SU-PER[®] Lysine is a pure lysine supplement with no additives, fillers or flavors.

Lysine is an essential amino acid which is commonly deficient in most equine diets.

Lysine is a limiting factor in protein utilization, so ensuring that your horse is getting adequate lysine in the diet will improve protein availability. In turn, proper protein utilization supports proper health of the horse, as proteins are critical for maintenance and support of nearly all body tissues.

In addition, lysine is also well known for supporting normal immune system response, production of hormones and enzymes, and maintaining healthy bones, hooves and coat.

SU-PER[®] Lysine is intended for use in horses only. We do not recommend this product for pets or livestock, as lysine requirements can vary greatly depending on species.
