## *SU-PER<sup>®</sup> Oxy-Up*

*Helps Support Normal Physical Performance!*

**Supports normal stamina and endurance.**

*SU-PER<sup>®</sup> Oxy-Up* is a supplement designed to help support stamina and endurance for performance horses. It contains Wheat Germ Extract, which is high in naturally occurring Octacosanol.

Octacosanol supports the ability of the muscles, brain and nervous system to use oxygen more efficiently, even in low oxygen environments. This supports more efficient energy production with a decrease in toxic by-products of metabolism.

Equine metabolism in high-stress training or events usually changes from aerobic (normal oxygen supply) to anaerobic (oxygen deficit). When horses exhaust their oxygen reserve, Octacosanol can support aerobic metabolism by decreasing oxygen demand.

In terms of general health, Octacosanol also supports hormone balance and the structural integrity of the brain, endocrine and nervous systems. Octacosanol is very effective before competition as a stress management tool.

*SU-PER<sup>®</sup> Oxy-Up* also contains Brewer's Yeast, a rich source of B-Complex Vitamins, and Magnesium, which supports normal energy production and metabolism.
