

SU-PER[®] Show Coat

Supplies Nutrients for a Healthy Coat!

Helps support a soft, silky, and shiny coat.

SU-PER[®] Show Coat is a feed supplement formulated to help support a soft, silky, healthy coat and provide nutrients for healthy skin.

SU-PER[®] Show Coat also helps support a more lustrous and faster growing mane and tail. Formulated using only high quality cold milled, Stabilized Flax Seed Meal as a source of Essential Fatty Acids and support nutrients, *SU-PER[®] Show Coat* is one of the healthiest ways to bring out a shiny, vibrant coat. And because we insist on using only the highest quality flax seed, *SU-PER[®] Show Coat* also provides high levels of Omega 3 fatty acids, which have numerous health benefits.

SU-PER[®] Show Coat brings out your horse's natural coat color, supplies the hair with essential oils for a silky look, and promotes the growth of new, healthy hair.

Our proprietary blend of Stabilized Flax Seed Meal, Amino Acids, B-complex Vitamins, and Minerals makes *SU-PER[®] Show Coat* the most effective coat conditioning supplement available today at a surprisingly economical price.

Most other popular coat products opt for the cheaper soybean meal or vegetable oils. While these products will help with the look of the coat, they are generally very high in Omega 6 fatty acids, which are not healthy for active horses or those involved in competition. Also, by using fatty acids as opposed to saturated fats, *SU-PER[®] Show Coat* can be fed safely in combination with any other supplements currently being fed without the risk of over supplementation or adverse effects.

If you want to give your horse the best coat possible, and also support optimum health and performance, *SU-PER[®] Show Coat* is a perfect choice.
