

SU-PER[®] Sound Plus

Complete Joint Support!

Recommended to support and maintain healthy joint function. Helps support the structural integrity of connective tissue.

SU-PER[®] Sound Plus is a complete joint supplement designed to maintain and support healthy joints, ligaments and tendons. This is a highly concentrated upgrade from our original *SU-PER[®] Sound*, containing all of the same nutrients plus high levels of MSM, Hyaluronic Acid, Chondroitin Sulfate, and powerful antioxidants.

For more severe joint issues, or when higher levels of daily maintenance are required for horses with history of joint issues, *SU-PER[®] Sound Plus* is among the most powerful joint supplements available. You can give 1 ounce daily as a well-balanced maintenance supplement, or increase to 2 ounces daily for more serious joint conditions.

SU-PER[®] Sound Plus is formulated to provide connective tissue support to joints ligaments and tendons. In addition, it contains powerful nutrients to help manage normal inflammatory response, and provide antioxidant support for active horses and seniors. And last but not least, with the addition of pure Hyaluronic Acid, it supports the production of synovial fluid in the joints, which provides cushion and lessens friction within the joint.

SU-PER[®] Sound Plus also helps to protect and repair tissues which are inevitably damaged through the everyday wear and tear of training, so that small tears, strains, and minor injuries heal faster and do not have the opportunity to worsen.

SU-PER[®] Sound Plus is a powerful supplement for horses with moderate to severe joint issues, or a great maintenance supplement for active horses. It can be given to horses of all ages, breeds and disciplines.

Ingredients include:

Glucosamine - The main constituent of GAG's (Glycosaminoglycans), which are the building blocks of cartilage and connective tissues. Increases the healing and production of new connective tissues and cartilage, and can also decrease inflammation and damage caused by free radicals.

Chondroitin Sulfate - Helps provide elasticity to joint tissues and helps retain moisture within the joint cavity. It is required for the maintenance and repair of cartilage.

Hyaluronic Acid - The primary component of synovial fluid in the joints. It can assist in maintaining high levels of synovial fluid to provide cushion in working joints.

MSM - A natural source of bio-available sulfur. Sulfur in this form is essential for the formation and maintenance of joints, ligaments, and tendons. Also has been shown to reduce pain and inflammation.

Bromelain - A powerful anti-inflammatory which accelerates tissue repair. Assists the body's natural process of muscle and body tissue maintenance after exercise.

Grape seed, Superoxide Dismutase, Alpha Lipoic Acid - powerful antioxidant nutrients to neutralize free radicals and protect healthy tissues.

Wide Range of Amino Acids including Proline and Arginine - Proline and Arginine are two of the main components of collagen and connective tissue, and supplementing of these two amino acids aids in the production of new tissue. Helps in the healing process of cartilage and the strengthening of joints, tendons, and the heart muscle. It works with Vitamin C to promote healthy connective tissue.

DMG - Supports immune health, and aids in oxygen delivery to joints.

Vitamin A, Zinc, Manganese, Magnesium, and Vitamin C - Nutrients necessary for tissue repair and the formation of new tissue.

Yucca Powder - An herbal extract which helps reduce inflammation.
