Cautions: Consult with your veterinarian prior to administering this product. Safe use in pregnant animals or animals intended for breeding has not been proven. If animal's condition worsens or does not improve, stop product administration and consult your veterinarian. Absorption of drugs taken simultaneously with this product may be delayed.

For use in horses only. Blitz® Pak™ provides support for electrolyte balance, stamina, performance, and recovery after intense exercise.

Directions for Use:

- **Pre-Event Use:** Administer one Pak (Approx. 80 grams) 3-6 hours before event on feed, with dose syringe or as directed by your veterinarian or equine nutritionist.
- **Alternate Directions for Use:** Administer 1/2 Pak (Approx. 40 grams) the day before event and 1/2 Pak 3-6 hours before the event on feed or with dose syringe.
- **For Best Results:** Mix Blitz!® Pak™ and Power Pak® Nitro™ together. Administer all the powder the day of or the day before the event, or administer half the powder the day before and half the powder the day of the event. Powder may be administered by dose syringe, top dressed on feed, or as a mash.
- **Note:** Use in accordance with event rules which govern the use of all products, including the timing for when products may be used.

Warnings: For animal use only. Keep out of the reach of children and other animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

Disclaimer: Except as otherwise provided herein, no warranties are expressed or implied. Neither Peak Performance Nutrients, Inc. nor its authorized resellers will be responsible for any consequential, incidental, special or indirect damages arising out of the use of this product.
