CALIBER®

MARE AND FOAL RATION

The best start in life includes proper nutrition, and this nutrient-dense feed supports the development of young horses while also meeting the needs of pregnant and nursing mares.

FEATURES	BENEFITS
High in digestible fibre	• Aids in the maturation of the gastrointestinal tract • Helps prevent colic and other digestive disturbances
Energy-dense, pelleted formula	• Facilitates a low feeding rate, important in late gestation when capacity is limited and early in life when foal's intake is low • Pelleted form means every mouthful delivers the same nutrients
Amino acid balancing	• High protein quality supports optimum growth of foals and milk production in mares
Organic trace minerals	• Highly available form, easily absorbed by mare and foal
Prebiotics (yeast culture)	• Promotes intestinal health and fibre digestion

All CALIBER® HORSE FEEDS contain organic trace minerals (cobalt, copper, manganese, zinc, selenium) for improved bioavailability and absorption; high levels of fat-soluble vitamins to aid in immune function, tissue repair and reproduction; concentrated B vitamins, including biotin and thiamine for hoof and coat condition; and prebiotics (yeast culture) to aid in fibre digestion and support gut health.

NUTRIENT ANALYSIS*

Feeding Rate	lbs/day		4-10	NSC (starch+sugar)	Max.	35	%	Copper	Min.	60	mg/kg
Crude Protein	Min.	16	%	Calcium	Actual	1.00	%	Iodine	Min.	1.4	mg/kg
Lysine	Min.	0.90	%	Phosphorus	Actual	0.75	%	Manganese	Min.	220	mg/kg
Methionine	Min.	0.30	%	Sodium	Actual	0.40	%	Zinc	Min.	330	mg/kg
Threonine	Min.	0.60	%	Potassium	Actual	0.80	%	Vitamin A	Min.	20,400	IU/kg
Crude Fat	Min.	5.5	%	Magnesium	Actual	0.30	mg/kg	Vitamin D	Min.	2,040	IU/kg
Omega-3	Min.	0.30	%	Selenium	Actual	0.6	mg/kg	Vitamin E	Min.	340	IU/kg
Omega-6	Min.	1.60	%	Cobalt	Min.	4	mg/kg	Biotin	Min.	5,600	mcg/kg

*All trace mineral and amino acid levels are based on proprietary research and may be higher than reported.

Ingredients: Beet Pulp, Barley, Canola Meal, Wheat, Distillers' Grains with Solubles, Corn, Peas, Oat Hulls, Canola Oil, Molasses, Limestone, Monocalcium Phosphate, Salt, Prebiotics (yeast culture), Pellet Binder, Trace Minerals, (Including but not limited to Availa-4 chelates and organic selenium), Magnesium Oxide, Amino Acids, Vitamins (including B Vitamins), Flavour.

FEEDING RATE

Offer CALIBER® MARE AND FOAL RATION to nursing foals as a creep feed at a rate not to exceed 1 kg per 100 kg of body weight. Feed to weanlings and growing horses at a rate of 0.6 to 1.25 kg per 100 kg of body weight. Body condition, growth rate and potential of horse will influence foal and growing-horse feeding rate.

Feed pregnant mares the ration at a rate of 0.5 to 1 kg per 100 kg of body weight, depending on stage of pregnancy and body condition.

Lactating mares should receive CALIBER® MARE AND FOAL RATION at a rate of 0.5 to 1.25 kg per 100 kg body weight, depending on level of milk production and foal's weight gain.

Forage quality will influence all feeding rates. Feed alongside high-quality forage and water. For more detailed feeding instructions, please refer to label.
