Powder Supplement Soluble In Water
Can be mixed with feed/concentrate or dissolved in water
Temperature resistant in pelletizing and extruding process

For Veterinary Use Only

Instruction:

- Bonzahorse supplement is an additive that can be added to feed according to the table of instruction. Doing so, there is no need to change the ingredients of the diet or other common mineral-based supplements.
- It should be pre-mixed with a part of the concentrate or other micronutrients before being mixed with the concentrate by the mixer.

Precaution: Do not use other organic micronutrient supplements (such as amino acid, peptide, hydroxy analogue, polysaccharide or yeast-based chelates) along with Bonzahorse supplement in diets.

Storage: Make sure to close container after each use. Keep out of reach of children, away from direct sunlight, in a dry place, at room temperature and in the original container.

Main Office: Flat2, No.1, Afshin Alley, Abdollahzadeh St., Keshavarz Blvd., Tehran, Iran
(+9821) 91200201

Package: Plastic jar

Net Wight: 500g

Bonzahorse Composition

Copper	Zinc	Manganese	Cobalt	Selenium	Chromium	Iron	Magnesium
10000	40000	40000	250	200	100	25000	20000

(ppm) in chelated form

Daily Consumption Dose per Horse as an Additive (On Top)

Body Weight (kg)	Dose (g)	Body Weight (kg)	Dose (g)
Under 70	1	350 - 400	4.5
70 - 100	1.5	400 - 450	5
100 - 150	2	450 - 500	5.5
150 - 200	2.5	500 - 550	6
200 - 250	3	550 - 600	6.5
250 - 300	3.5	600 - 650	7
300 - 350	4	650 - 700	7.5

For low-performance heavy horses, the consumption dose is reduced by about 50%.
