

# BREEDA®

PREMIUM NUTRITION FOR  
BREEDING & PERFORMANCE

## SPECIALISED NUTRITION

Specialised nutrition is required to sustain mares throughout the breeding cycle, support healthy foetal growth and to fuel performance horses. Breeda® is fully fortified with elevated levels of heat stable vitamins, chelated mineral proteinates and essential amino acids, a formula proven to deliver quality nutrition to horses when they need it most.

## QUALITY PROTEIN

Quality protein, containing essential amino acids, is required to develop strong, lean muscle and healthy body tissue. BREEDA® contains 17% protein to support healthy growth and development of young horses, aid milk production in breeding mares and to promote muscle development in performance horses.

## BONAFIDE® ADVANTAGE

Bone strength is critical to all healthy development and soundness of all horses. BREEDA® is fortified with Quinaquanone® (the active constituent of Bonafide®), a bio-available form of Vitamins K1 and K2, which are required for the effective activation of osteocalcin which is involved in bone formation.

## SUITABLE FOR ALL AGES AND DISCIPLINES

BREEDA® is suitable for a wide range of horses and ponies, simplifying feed time. Providing conditioning ingredients, coupled with quality nutrients, BREEDA® maintains optimal condition whilst supporting the health and wellbeing of your horse or pony.

## ENHANCED DIGESTIVE SUPPORT

BREEDA® is produced using steam extrusion technology which utilises heat and pressure to reconfigure starch molecules (gelatinisation). Starch gelatinisation significantly increases grain digestibility and nutrient utilisation within the small intestine, thereby reducing the burden on the hindgut and minimising risk of dietary induced disturbance. Prebiotics promote the growth of beneficial microorganisms within the hindgut and support the horse's immune system.

## COOL CONDITIONING FORMULA

Your horse's condition is a key indicator of overall health and wellbeing. The combination of extruded barley, quality amino acids derived from canola meal and the cool conditioning properties of oil make BREEDA® the ideal choice for weight gain and conditioning.
