

STRICTLY EQUINE. THE HEALTHY DECISION.

# Fat Maxx

Weight and Hair Coat Supplement containing Flax Seed Meal, Dicalcium Phosphorous, Vegetable Oil, Salt, Calcium, Manganese Sulfate, Biotin, Niacin, Folic Acid, Vitamin B12 and more.

Protein 20.0%, Crude Fat 25.0%, Crude Fiber 6.17%

Strictly Equine Fat Maxx is an excellent top dressing for any feed program to fill in the nutritional gaps. Horses fed Fat Maxx will not only have a glossy and soft hair coat, but growth, tissue repair, and maintenance all will be optimized. Fat Maxx contains the essential fatty acids Omega 6 and Omega 3, all fat soluble vitamins, A, D, E and K, the essential amino acid lysine, chelated minerals including Zinc, Copper and Calcium, improving bone and connective tissue health, electrolytes to combat losses from hard training and sweat, B complex vitamins, critical for central nervous function and proper digestion and energy utilization, plus blood building nutrients, B12 and folic acid.

With the addition of soy and flax seeds, Fat Maxx is an excellent source of the essential fatty acids, Omega 6, and Omega 3 in a balanced ratio. By adding Fat Maxx to feed, less grain is required which is beneficial for those hard to keepers, and horses requiring low starch diet. Fat is energy dense and provides more than twice the kcals per gram (9kcal per gram) compared to carbohydrates and protein, (both provide 4 kcals per gram).

Strictly Equine Fat Maxx is a convenient, cost-effective supplement that will not only result in a glossy hair coat, but overall health, digestion, energy utilization, immunity, growth, tissue repair, and maintenance will all benefit. Fat Maxx is comprised of balanced levels of Omega 6 and Omega 3 essential fatty acids, lysine the essential amino acid critical for protein synthesis, B complex vitamins for healthy nerves and energy metabolism, including B12 and folic acid critical for red blood cell production, chelated minerals (Zinc, Copper, Calcium), electrolytes and fat soluble vitamins.
