

MUNGA®

ULTIMATE NUTRITION FOR MUSCLE AND PERFORMANCE

SPECIALISED NUTRITION

MUNGA® is specifically formulated with elevated levels of nutrients to support training, performance and recovery of elite performance horses. Fully fortified with elevated levels of heat stable vitamins, chelated mineral proteinates and essential amino acids, MUNGA® is the ultimate choice for competition horses or horses in need of a protein or nutrient boost.

LOW FEEDING RATE

MUNGA® delivers essential nutrients in a highly concentrated form, ensuring your horse's vitamin and mineral requirements are met at a low feeding rate. This makes MUNGA® the ideal choice for 'good doers' - horse and ponies that require quality nutrition at a low feeding rate to maintain optimal condition. MUNGA® can also be used to boost quality protein and nutrient density of your horses current diet.

HOOF AND COAT HEALTH

MUNGA® is fortified with Biotin, Zinc and Oil, essential in maintaining strong hooves, healthy skin and coat shine.

ENHANCED DIGESTIVE SUPPORT

MUNGA® is processed using micronization technology, utilising infrared heat to improve digestibility and palatability. As a low starch feed, MUNGA® is the ideal choice to support overall digestive health.

BONE DENSITY

Bone strength is critical to both healthy development and soundness of all horses. MUNGA® is fortified with Quinaquanone® (the active constituent of Bonafide®), a bio-available form of Vitamins K1 and K2, which are required for the effective activation of osteocalcin which is involved in bone formation.

QUALITY PROTEIN

Quality protein, containing essential amino acids, is required to develop strong, lean muscle and healthy body tissue. MUNGA® contains 25% protein to promote muscle development and maintain healthy body tissue.

ANALYSIS AS FED (PER 1KG)

DIGESTIBLE ENERGY (DE)	13 MJ	Potassium	13 g	Quinaquanone® (Vitamins K1 & K2)	3,850 µg
CRUDE PROTEIN	25 %	Chloride	21 g	Vitamin B1 (Thiamin)	14 mg
CRUDE FAT	12.5 %	Iron	180 mg	Vitamin B2 (Riboflavin)	8 mg
CRUDE FIBRE (MAX)	15 %	Copper	96 mg	Vitamin B3 (Niacin)	39 mg
STARCH	6 %	Zinc	250 mg	Vitamin B5 (Pantothenic Acid)	15 mg
NSC (MAX)	13 %	Manganese	200 mg	Vitamin B6 (Pyridoxine)	5.5 mg
ESC (MAX)	6 %	Iodine	1.6 mg	Vitamin B9 (Folic Acid)	5 mg
SALT (MAX)	3 %	Selenium	1 mg	Vitamin B12 (Cobalamin)	27 µg
Lysine	14 g	Vitamin A	15,500 IU	Biotin	750 µg
Calcium	13 g	Vitamin D	1,900 IU	Choline	2,000 mg
Phosphorous	7 g	Vitamin E	763 IU		
Magnesium	6 g	Vitamin C	1,500 mg		
Sodium	10 g	Vitamin K	3.9 mg		

INGREDIENTS

Micronized Beans, Micronized Lupins, Sunflower Seeds, Canola Meal, Lucerne Meal, Millrun, Soybean Meal, Canola Oil, Rice Bran Oil, Molasses, Calcium Carbonate, Dicalcium Phosphate, Magnesium Oxide, Potassium Chloride, Salt, Mitavite® Vitamin and Mineral Premix (Including Heat Stable Vitamins and Chelated Mineral Proteinates), Vitamin C & Quinaquanone® (Active Constituent of Bonafide®, Bio-Available Vitamins K1 & K2).

FEEDING GUIDE (PER DAY)

Body Weight	Maintenance/ Light Work	Medium Work	Heavy Work
300kg	0.75 kg	1 kg	1.25 kg
400kg	1 kg	1.25 kg	1.5 kg
500kg	1.25 kg	1.5 kg	1.75 kg
600kg	1.5 kg	1.75 kg	2 kg

Roughage (pasture, hay, chaff, beet pulp etc.) should be fed at a minimum of 1.5-2% of bodyweight. Total daily feed (hard feed + roughage) should be 2-3% of bodyweight depending on age, workload & climate. Feeding rates intended as a guide only. All variables should be taken into consideration.
